

Product Data Sheet

Particulate Filter

Product: RN75008

Properties: Highly Toxic Particulate Filter. (P3)
(99.97% Minimum Filter Efficiency)

Uses: Approved for respiratory protection against dusts, fumes and mists having a time weighted average less than 0.05 milligram per cubic meter, asbestos containing dusts and mists and radionuclides.

Standards: EN143, CE0194

Precautions:

- Only to be Used for Particulate Protection
- Not to be used in areas that are Oxygen deficient i.e. where Oxygen is below 19%.
- Not to be used where the contaminant is IDLH.
- Only to be used with North Safety Products approved Respirator

Limits for use: The exhaustion of particle filters is told by the progressive clogging of the filter media which results in increasing breathing resistance. Particle filters can be stored and used indefinitely.
