MATERIAL COMPOSITION

- Nomex® DIAMOND Ultra, 210 g/m²
- SOFIGUARD® Performance
- GORE-TEX® Fireblocker N, 140 g/m², optional: CROSSTECH, 135 g/m²
- Nomex® Comfort Grid, 200 g/m² - SOFIDRY®

SOFIGUARD® Performance

- the treatment of the outer shell provides protection against liquid chemicals
- 25 washing cycles at 60°C and drying before any re-impregnation

SOFIDRY®

- moisture transfer technology
- the permanent treatment of the lining gives the protective garment more comfort and safety by removing moisture rapidly away from the wearer and the garment

FEATURES

- SOFIGUARD® - 25 washing cycles before re-impregnation
- low weight of material composition = high comfort
- ergonomic design for better comfort and protection
- THERMO-TEX® TEST (tested according to EN 469:2005 – annex C) – 2nd / 3rd degree burn
- ELECTRIC ARC TEST – tested against the thermal hazards of an electric arc according to EN 61482-1-2, box test
