

GRIP IT FC

DESCRIPTION

Features & Benefits

Strength: Despite its lightweight construction, Grip It® offers excellent resistance to abrasion. The high quality nitrile grip coating ensures maximum abrasion score as defined by EN388

Comfort: The soft seamless knitted yarn provides an exceptional level of comfort and flexibility, whilst the open back style of the palm coated products allows excellent breathability

Dexterity and Fit: The snug fit provides maximum dexterity for the most tactile of applications

Handling: Provides excellent dry grip
