FIREDEVIL 911 X-TREME 2.0

The protective glove for heavy duty fire service operations. High-tech protection with high levels of comfort for the wearer.

>> palm: 100% KEVLAR® (flameretardent, elastic protection against heat & cuts)

>> Alternative: with knit cuff Model: FIREDEVIL 911 X-TREME 2.0 (short)

FIREDEVIL 911 X-TREME 2.0 ranks as the most innovative and safest firemen's glove on the German market. They protect from extreme thermal impact as well as the risks that come from machines and movable objects. Shrinkage, even with direct flame impingement is minimal. At the same time, in contrast to most firemen's gloves made from leather, a hardening of the textile material does not take place.

High-tech protection with high levels of comfort for the wearer and an innovative design (PBI® gold).

FIREDEVIL 911 X-TREME 2.0

- >> pbi[®]gold heat protection (60% KEVLAR[®]/40% PBI[®]gold)
- a transparent silicone-carbon coating (resists water, chemicals and flammable fluids)
- >> steam-blast prevention due to the porelle
- >> moisture barrier (this is additionally strengthened by the transparent silicone-carbon coating
- >> gathered padding creates more freedom fo the fingers to move around and insulation from radiant heat
- >> removal of the 3M reflective stripes from the back of the hand to the back of the aguntle
- >> generous opening width of the gauntlet allows the user to put the gloves on over
